

### Pool Opening Conditions:

- All swim ready pool openings are completed on the third visit.
- Maintenance must be performed by home owner after completion of opening.
- Pool pumps must remain running 24/7 until water has cleared.
- Openings are completed as stated.
- We are not responsible for the condition of water clarity after our initial shock treatment for complete, partial and start up openings.
- Pool equipment must be accessible.
- Swimming Pools must be filled with water within 72 hours.
- We are not responsible for handling or removal of debris from winter pool covers.
- Swimming pool areas must be free of fecal matter.
  
- Pool heaters will be lit after pool water is balanced and water temperature should be 60 degrees as per manufactures instructions.
